- Develop, implement, monitor and review our safety standards and management systems
- Comply with our legislative obligations and industry standards
- Identify, assess, manage and thoroughly investigate our safety risks
- Involve our people in developing risk solutions
- Encourage a reporting culture
- Develop our people to work safely
- Hold our people accountable for their actions and behaviours
- Take responsibility for safety by developing a consultative approach with our customers and the communities in which we operate
- Regularly monitor our progress towards NO COMPROMISE TO SAFETY
